

Priyadharshini Balaji

MSc Business Analytics · Dublin City University

priyadharshiniblj25@gmail.com · linkedin.com/in/priyadharshini-balaji-66a361224 · github.com/priyadharshini-code-beep · Dublin, Ireland

PROFILE

MSc Business Analytics student at Dublin City University with a BTech in IT from Rajalakshmi Engineering College. Combines engineering fundamentals with SQL, Python, ML and data visualisation. Currently delivering a real-world industry project with Safefood (Seafood Ireland) as part of the DCU practicum.

EXPERIENCE

Business Analyst — Applied Data & Software Engineering

Jan 2026–Now

Safefood, Dublin (Hybrid) — Industry Project

- Designed data-processing workflows to clean, transform and analyse structured datasets.
- Wrote optimised SQL queries (joins, aggregations, subqueries) to support decision-making.
- Built reusable analytics code; translated business requirements into technical solutions.

Android App Development with IoT — Internship

Jul 2023

NSIC, India

- Contributed to an industrial Android app integrated with IoT sensors, bridging hardware and mobile.

PROJECTS

Customer Segmentation — RFM Analysis

Python · scikit-learn · Plotly

Segmented 1,000 retail customers using RFM scoring & K-Means. Built interactive 3D visualisation.

Sales Forecasting Dashboard

Python · Time Series · Plotly

90-day forecasting pipeline with trend/seasonality decomposition and 80% confidence bands.

Power BI Dashboard — Sales Analysis

Power BI · Business Analytics

Interactive dashboard analysing sales trends and KPIs across multiple dimensions.

BERT vs. Generative AI for Business

Python · NLP · Deep Learning

Fine-tuned BERT on reviews; compared with Llama 3.1 zero-shot and few-shot prompting.

3XM Data Analytics Project

Python · Machine Learning

Two ML algorithms to build a complete analytics pipeline for 3XM Solutions.

ePortfolio Website

Quarto · Git · GitHub Pages

Designed and deployed personal portfolio with Sass styling and continuous deployment.

EDUCATION

MSc Business Analytics

Dublin City University

2025 – 2026

BTech, Information Technology

Rajalakshmi Engineering College

Chennai · 2021–2025

TECHNICAL SKILLS

Languages

Python, SQL, R

Libraries

pandas, scikit-learn, Plotly

BI & Viz

Power BI, Tableau, Excel

Tools

Git, Quarto, Jupyter, VS Code

Methods

Clustering, Time Series, EDA

LANGUAGES

English (fluent) · Hindi · Tamil

COMPETENCIES

- Data Cleaning & EDA
- Machine Learning
- Dashboard Design
- Stakeholder Comms
- Business Intelligence
